## Issuance of Shares Pursuant to a Private Placing

### NI43-101 Commissioned

### Successful Test of Beneficiation Plant

---

**Vancouver, March 9 2015 - Newlox Gold Ventures Corp.** (“Newlox” or “the Company”) (CSE: LUX, XETRA®: NGO) announces a private placement of 1,000,000 units at \$0.05 per unit. Each unit consists of one common share and one common share purchase warrant. Each warrant entitles the holder to purchase one common share of Newlox for a period of up to two years from the date of closing for \$0.10. No finders fee is payable in connection with this placement.

The Company advises that in accordance with its January 23<sup>rd</sup> announcement a NI 43-101 has been commissioned.

Newlox Gold Ventures Corp. is a precious metals trading and environmental reclamation Technology Company. The company has secured access to multiple surface dumped stockpiles of historical tailings for reclamation. The Company is not an exploration or mining company. It does not conduct mineral exploration, orebody definition, or mining.

The Company’s initial reclamation facility is operational and is continuing with the final stages of an expansion program designed to increase throughput. Its recently announced construction of a “Beneficiation Plant” has progressed to the point whereby an initial test run on March 4, 2015 has succeeded in liberating contaminants and precious metals from concentrate made from waste dumps, thereby confirming proof of concept, engineering, design and deployment. The Company wishes to acknowledge the help from the Norman B Keevil Institute of Mining Engineering at the University of British Columbia and particularly Professor Marcello Veiga for their engineering support of this environmentally important undertaking.

The longer-term objective of Newlox Gold Ventures Corp. is to establish a dividend paying enterprise, which will allow its shareholders to participate in equity value growth, share in profits, and contribute to environmental clean up while setting a high standard of social responsibility.
